SKILLATHON

KEY INTERMEDIATE Medication Administration

Oral Route

Definition:

Administering drugs through the mouth.

What kind of medications?

Tablets, Pills, Capsules, and liquid medications.

Cautions:

Make sure medication goes down throat and animal swallows it. Make sure the animal is not choked by the medication going down the trachea.

Administration Method:

Drenching Tube, Balling Gun, or Oral Dosage Syringe

Topical Route

Definition:

Applying the medication to the skin or the mucus membranes (eyes, ears, nasal passages).

What kind of medications?

Ointments, Aqueous Solutions, Powders, and Aerosols.

Cautions:

Do not allow these products to come in contact with the animal's eyes, nose, reproductive tract, or mouth unless it is specifically formulated for that use.

Administration Method:

Plastic Tubes, Plastic Containers, Spray Can, Latex Gloves

Injectable Route

Definition:

Administering drugs directly into an animal's body with a syringe and a needle.

What kind of medications?

Intermuscular, Subcutaneous

Cautions:

Give this according to label instructions. Use sterilized needles and syringes.

Administration Method:

Syringe and Needle.

INSTRUCTIONS

SKILLATHON

INTERMEDIATE Medication Administration

Intermediate PQA Plus® Medication Administration Instructions

- There are 12 labels with information about Types of Medication Administration. Ask each participant to match the correct label that describes each Type of Medication Administration with the corresponding box for each of the questions.
- Once the participant has completed the station, please circle the number of answers that they got correct on their score sheet. There is a corresponding point value for the number correct. Please score their score sheet and pass it to the station facilitator behind you.

Scoring: Each correctly matched label is worth 2 points, for a total of 24 points. Since our stations have to equal 25 points every participant will receive 1 free point, making this station a grand total of 25 points.

****This station has a total of 25 points. Don't forget the 1 free point.****

*Thank you very much for volunteering to help with the skillathon. Please remember to complete the skillathon facilitator information sheet and leave it on your stations table at the end of the competition. **Thank You!***
