Pork Industry Knowledge

Name: _____

Answer the questions regarding PQA Current Industry Knowledge.

1. What is another name for Influenza Type A?
 - a. H3N2
 - b. H1N1
 - c. H5N6
 - d. PEDV
2. True or False? Direct transmission, which is the transfer of disease from one pig to another, is the most common method of disease transmission?
 - a. True
 - b. False
3. What is the current system used for payment of pork?
 - a. Low amounts of fat (leanness) and high amounts of muscle
 - b. High amounts of marbling
 - c. High amounts of fat (leanness) and low amounts of muscle
 - d. Reddish Pink, Firm, and Non-Exudative
4. True or False? The H1N1 flu is a food-borne illness, not a Respiratory illness.
 - a. True
 - b. False
5. What is the most recent virus that has been identified in the U.S. by the USDA?
 - a. H1N1
 - b. PSSS
 - c. PEDv
 - d. H3N2
6. What does PEDv stand for?
 - a. Pork Epidemic Diarrhea Virus
 - b. Porcine Epidemic Diarrhea Virus
 - c. Porcine Epidemic Disease Virus
 - d. Porcine Euthanasia Disease Virus
7. Name one way that producers can manage the prices they receive for their hogs?
 - a. By utilizing an Informal Model Contract
 - b. Invest into the contractors company
 - c. Watch hog prices, and sell when profit can be best maximized
 - d. Hedging with future or options contracts or forward contracting
8. What does HACCP stand for?
 - a. Hazardous Assessment for Critical Condition Points
 - b. Hazard Analysis and Critical Control Points
 - c. Helping Animals in Critical Condition Party
 - d. Hazard Analysis for Chemical Compound Point
9. Please circle the 2 answers that best describes HACCP.
 - a. A system used in meat packing plants to prevent food safety problems
 - b. Identifies the measurable environmental and human health outcomes
 - c. Regulated by the United States Department of Agriculture - Food Safety and Inspection Service
 - d. Responsible for developing and executing U.S. federal government policy on farming, agriculture, forestry, and food.
10. What is a modern, streamlined information system that helps producers and animal health officials respond quickly and effectively to animal disease events in the United States, through the use of animal identification?
 - a. Premises ID
 - b. National Animal Identification System
 - c. Pork Quality Assurance Certification Programs
 - d. Electronic Identification Tags
11. Fill in the blank. All pork found in retail stores is inspected to the rigors of _____ inspection for wholesomeness.
12. What are pre-harvest safety issues producers are faced with?
 - a. Salmonella
 - b. Trichinae
 - c. Withdrawal dates
 - d. All of the Above

INSTRUCTIONS

SKILLATHON

SENIOR Pork Industry Knowledge

Senior Industry Knowledge Instructions

- Have each participant complete the quiz. Please make sure they put their full name on the quiz.
- Each question is worth 2 points. Question #11 is fill in the blank. All questions are either right or wrong. No half credit is to be given.
- Once the participant has completed the station, please circle the number of answers that they got correct on their score sheet. There is a corresponding point value for the number correct. Please score their score sheet and pass it to the station facilitator.

Scoring: The total of all the questions is 24 points. Every participant will receive 1 free point, making this station a grand total of 25 points.

****The station total is 25 points.**

There cannot be more than 25 points scored for this station.

Thank you very much for volunteering to help with the skillathon. Please remember to complete the skillathon facilitator information sheet and leave it on your stations table at the end of the competition. Thank You!
